AQABA Logistics Village

ALV is a brand new concept for logistics in Aqaba.

Designed to be flexible enough to handle many categories of business.

ALV's product offerings can evolve with developments in cargo flows and the changing environment of the region.

ALV new logistics infrastructure will handle both short and long term storage, distribution by land and sea, third party logistics services and cross-stuffing between trucks and shipping containers.

A New Logistics Concept in Aqaba

30,000 m² multipurpose warehouse with temperature control for handling and storage of FCL and LCL cargo.

3,000 m² covered shed.

24,000 m² open yards paved with extra heavy-duty interlocking tiles.

23,000 m² specialised vehicles storage yard.

Service centre including 5,000 m² of rental office space.
