

Agaba Port Marine Services Company (APMSCO) was established in 2007 through a partnership between public and private sectors, with a joint development agreement held between Agaba Development Corporation (ADC) with Smit Lamnalco Jordan, a joint venture between (Smit Lamnalco Ltd. and Jordan National Shipping Lines) to provide advanced marine services to the port of Agaba by having sophisticated fleet of tugs and service boats.

The company provides a comprehensive marine services including escort,

pilotage, berthing, salvage, firefighting, water supply, Vessel Traffic Service (VTS) and slipway maintenance (dry dock and maintenance service for boats coming from inside and outside Jordan).

In order to operate a safe and reliable contract APMSCO acquired seven new vessels (Four ASD tugs and three service boats) built to international standards to assist in the safe operations of berthing the Floating Storage Regasification Unit (FSRU) alongside the Sheikh Al Sabah LNG terminal and along with any LNG carriers calling the terminal.
